SUMMARY

Junior at Clemson University pursuing a bachelor's degree in mechanical engineering. Committed to expanding technical expertise through academic excellence and active engagement in extracurricular activities. Eager to contribute to dynamic teams and gain practical experience to support professional growth. Seeking summer internship opportunities.

EDUCATION

Bachelor of Science in Mechanical Engineering December 2027
Clemson University Clemson, SC
3.9 GPA | President's List & Dean's List | Undergraduate Research

EXPERIENCE

Operations Intern May 2026 – July 2026
Vulcan Materials Company Columbia, SC

- Directly supported quarry operations by performing preventative maintenance on conveyors and screens, ensuring the seamless processing of 10,000 tons of aggregates daily, resulting in decreased down time.
- Operated many different types of equipment such as CAT 775G haul truck, shuttle wagon, and man lift.
- Developed hands-on technical skills including welding and use of many different hand and power tools.

Valet Driver May 2025 – August 2025
Southern Valet and Transportation Columbia, SC

- Parked and retrieved customers' vehicles safely and efficiently while providing professional customer service.
- Trained new employees on company systems, procedures, and customer-service expectations.

ACCOMPLISHMENTS

- Undergraduate research in advanced manufacturing with ultrafast lasers
- Presidents/Deans list Clemson University
- Created many personal projects using different CAD software and 3D printers
- Designed a 4-bar linkage windshield wiper system using SolidWorks and gear ratios to reach a desired angular velocity

SKILLS

Technical: SolidWorks, MATLAB, Equipment Operation, Welding, Equipment Inspection, Maintenance
Professional: Customer Service, Research, Teamwork, Safety
